

A Week at Pinetree

As we continue to approach the end of term, pupils continue to work hard on a range of different subjects. The focus this week has remained on English and Maths, and there has certainly been a higher focus on developing numeracy skills. It has been particularly pleasing to see pupils flourish and able to make the expected progress. Alongside the work focus has been the return of the Premier League and with the Pinetree Premiership leaderboard hotting up - this has also been a hot topic this week!

With the recent announcement that all members of the public should be wearing face masks on public transport and with the growing trend of people feel comfortable wearing these, some pupils got creative when making their own masks out of unused fabric we had in school.

Like always in DT, pupils had to make a design, make a prototype and then make the mask for real and as you will see there are several really creative ideas and designs. Alongside DT, it continued to be Pasta week in FT. And pupils were making one of my favourite dishes (admittedly there are a few) of making a cheesy sauce to go with their pasta. One pupil even gave this a hidden twist and made a Chinese sauce flavour, which sent a beautiful smell throughout the school.
